

MAXIMIZE YOUR ROI WITH WORM POWER

Healthy soils and biomes are key to profitable harvests

OVERVIEW

- With increased costs of fertilizer programs and concerns about soil health, sustainable options are needed for improving production systems.
- Worm Power has harnessed the power of the earthworm, and our vermicomposting process optimizes the conversion of feedstock into a valuable liquid extract delivering consistent quality and results.
- Worm Power Liquid Extract increases the uptake of macro and micro nutrients from both conventional and organic sources driving increased yields.

OBJECTIVE

Evaluate strawberry yield response to Worm Power Liquid Extract

TRIAL DETAILS

Field trial conducted by third-party, independent researcher in California

SUMMARY

- Yield increase in trays / acre of 27.6% with Worm Power Liquid Extract compared to grower standard
- Average weight per marketable fruit increased by 4.7 grams compared to grower standard
- Additional net profit of \$2,033.20 per acre compared grower standard
