

WormFACTS

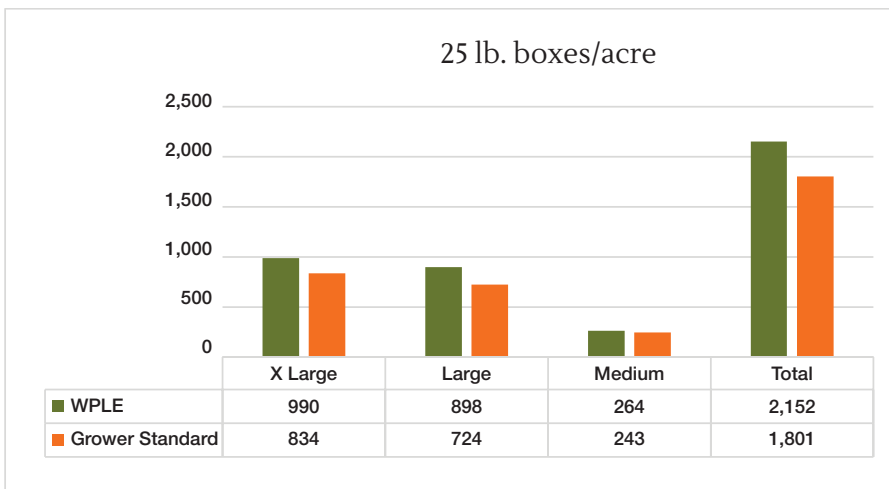

MAXIMIZE YOUR ROI WITH WORM POWER

Healthy soils and biomes are key to profitable harvests

OVERVIEW

- With increased costs of fertilizer programs and concerns about soil health, sustainable options are needed for improving production systems.
- Worm Power has harnessed the power of the earthworm, and our vermicomposting process optimizes the conversion of feedstock into a valuable vermicompost liquid extract delivering consistent quality and results.
- Worm Power Vermicompost Liquid Extract increases the uptake of macro and micro nutrients from both conventional and organic sources driving increased yields.

WORM POWER LIQUID EXTRACT YIELD ADVANTAGE (2 harvests) Compared to Grower Standard

OBJECTIVE

Evaluate round tomato yield response to Worm Power Vermicompost Liquid Extract

TRIAL DETAILS

Field trial conducted by Southeastern Florida tomato grower. Field planted in late August with 10 gals / acre treatments applied in August, September, October and November. Two harvests completed on November 5th and November 20th.

SUMMARY

- Yield increase of 351 twenty five pound boxes (8,775 lbs) / acre with Worm Power Vermicompost Liquid Extract compared to grower standard
- Total Unmarketable fruit decreased by 14.3% with Worm Power Vermicompost Liquid Extract compared to grower standard
- Additional net profit of \$4,356.78 per acre compared to grower standard
- The use of Worm Power Vermicompost Liquid Extract also allowed for a 3rd harvest which saw unmarketable fruit decrease by 35.2% versus the grower standard.
